RE: Ceph Upstream Documenter Opportunity

Dear Sir or Madam:

My name is Zac Dover and I was recently told about the Ceph Upstream Documenter Opportunity (<https://ceph.com/community/ceph-upstream-documenter-opportunity/>) by Andrew Burden.

I have worked in numerous environments throughout my career (most prominently at Red Hat before its acquisition by IBM), collaborating with developers and system administrators and security teams to create documentation that is technically accurate, grammatically correct, and unambiguous.

Attached please find over two-hundred pages of my technical writing in a book called "Handle".

My rate for this six-month contract is \$500 AUD per day.

I am able to start in the late third- or early-fourth quarter of 2019.

Sincerely,

Zac Dover
